## TEXAS SMALL LAND SALES REPORT | 2019 EDITION

## EXECUTIVE SUMMARY

The 2019 edition of the Texas Small Land Sales Report shows that land sales volume and median price experienced strong gains in 2018, while total dollar volume topped \$1 billion for the second year in a row.

The demand for Texas land continues to increase due to strong population and economic growth. Overall small land sales in 2018 experienced strong growth, particularly in West Texas due to a surge in oil and gas production and in the Gulf Coast area due to recovery activity from Hurricane Harvey.

The report found that the number of small land sales grew in many regions. Small land sales in West Texas, Gulf CoastBrazos Bottom and Austin/Waco/Hill Country all experienced double-digit percentage gains in 2018. Conversely, small land sales volume in the Panhandle and South Plains, Northeast Texas and South Texas regions all experienced declines.

The definition of a "small" land sale varies by region but is generally a land sale of 200 acres or less. The exception is Far West Texas, where 500 to 8,000 acres qualifies as a small land sale.

For the sixth straight year, Texas recorded a statewide increase in small land sales volume, with sales increasing 5.9\% annually to 8,036 tracts sold. The average price per acre grew $5.13 \%$ year-over-year to $\$ 5,804$ an acre. For the second year in a row, total dollar volume topped $\$ 1$ billion for a total of $\$ 1,146,758,167$.

Statewide, smaller properties are growing in popularity with many being purchased as an expansion of a larger property, especially in sub-markets right outside of the large metro areas. With housing prices increasing statewide, there is demand for more subdivision developments, and, thus, more tracts are being purchased for pre-development.

The report also revealed the average tract size for small land sales in Texas decreased 8.3\% to 33 acres. The Panhandle and South Plains, and the Gulf Coast-Brazos Bottom were the only regions that experienced increases in average tract size, growing 29\% and 5.5\%, respectively.

## What Defines a "Small Land Sale"?

The definition of a small land sale varies from region to region. The Real Estate Center at Texas A\&M University generally defines a small land sale as a land sale of 200 acres or less. The exception is Far West Texas, where 500 to 8,000 acres qualifies as a small land sale.
